

An Example Document

This is a very small example document. Its sole purpose is to illustrate the use of my macro to include formatted program listings. The following is the ubiquitous "Hello, World" program.

```
1 #include <stdio.h>
```

```
2 int main (void)
```

```
3 {
```

```
4     printf ("Hello, World!\n");
```

```
5     return (0);
```

```
6 }
```

— *hello.c*

— *hello.c*

This is some text that comes after the formatted version of the program.
